How To Get Started

- ◆ Getting started is as easy as connecting with me or the coach that invited you in for this experience & opportunity
- ◆ We'll simply discuss your current lifestyle, your fitness & health challenges & goals, as well as your interest in the potential coaching opportunity
- ◆ Once we determine which program will be guaranteed to give you the results you desire, you'll be sent a direct link you must enroll from to be a member of your coaches team and get the personalized trainings our team offers.

Then What???

- ◆ As a new coach and 'challenger' you'll take the Beachbody challenge by simply completing your program per the program calendar and recommendations of your coach. You focus on getting yourself into your best habits. You don't have to already have reached your goals to be a coach. You just have to be willing to share your journey. Most of us coaches have not reached our ultimate goal, as our goals continue to shape and shift as we do. While i do encourage taking before/progress/and after shots so you can witness your own transformation, you DO NOT have to publicly share these. Your job as a coach is simply to share YOUR HEALTHY LIFESTYLE, not your naked body.
- ◆ At the same time your coach will be working with you, giving you specialized videos, getting started right calls, and various training tools to earn your investment back and start earning income while getting results yourself.

And how much time & money will all of this take??

- ◆ the beauty is you make your own hours. Most of the workouts are only 25-30 minutes a day. You determine how much time you want to put aside for the trainings and running your business. While i recommend starting with an hour a day for those who are truly dedicated, many of my coaches simply start out as challengers who appreciate the discount and coach culture and eventually months down the line join the trainings and open the doors to their business.
- ◆ You have no boss...you essentially become your own boss. Myself or the coach who invited you into the opportunity will support your growth. It is our goal to see you succeed.
- ◆ There are no steep overhead costs. The coach sign up fee of \$39.95 is completely waived when you sign up with a challenge pack (this is the program of your choice along with superfood shakeology). If you've ever purchased a challenge pack in the past you can still enroll at \$39.95 and submit for FULL REIMBURSEMENT regardless of if the purchase of your challenge pack was with your current coach or not. Your only ongoing business fee is \$15.95 a month which covers everything most business owners dread: websites, orders, shipping, handling, returns, exchanges etc. Since you'll be a discount member now, you'll even start getting your Shakeology at discount, so in the end you actually SAVE money, even if you help no one.

Are you ready to take a leap of faith?

- ◆ There is no risk to enroll, all programs have a full 30 day money back guarantee. Most challenge packs range from \$140 - \$205. Think of three people right now that would do the program with you, and your program will be fully paid off no matter what the cost, AND more importantly remember YOUR WHY. You will get results.
- ◆ If you are ready to change your life, enjoy “work”, make your own hours, be your own boss, earn a potential 6 figure income in less than 2 years, reach your goals while helping others get fit, and ready to join our team simply contact me or your coach.
